Skiplino

May 2019 - Mar 2020

Mobile Team Lead

- Leading the mobile team on enhancing the experience of the apps and introducing new products & features.
- Developed the new [Skiplino Customer App](#) from scratch.
- Added detailed analytics that led the team to better understand user needs and helped us make data-oriented decisions.
- Added new products to the platform.
 - **Virtual Branch Product:** a product that allows customers to book a video call service with our clients and be served remotely.
 - **Retail Product Product:** a product that allows customers to book tickets containing QR Code and allow agents to check-in & check-out customers using the admin app by scanning the QR Code of the customer's ticket.

Skiplino

Sep 2018 - Apr 2019

iOS Developer

Collaborate with the team to define, design, and ship new features for the four Skiplino apps.

1. **Customer app on iPhone:** an app for customers to book and manage appointments remotely.
 - Migrated the old app from Swift 3 to Swift 5.
 - Added appointments feature.
2. **Branch app on iPad:** an app that allows walk-in customers to book tickets in the location and get the tickets via SMS, email, or printed.
 - Added forms.
 - Added support for more printers.
 - Added screen saver feature.
3. **Branch TV app on Apple TV:** an app to display and announce called tickets.
 - Added new layouts.
 - Added digital signage feature.
 - Improved the quality of the tickets announcer by integrating with AWS Polly TTS service.
4. **Admin app on iPhone & iPad:** app for agents and admins to view real-time reports and call tickets using iPad and iPhone.
 - Added advanced reports.
 - Added more functionalities for the agents to call and manage tickets.
